

## Delhi Modern Public School Pampore

**Subject:Science**

**Class:Ist**

**Term Ist : Study Material**

**Lesson no.6**

**Topic: Food and homes of animals**

This lesson tells about the food that animals eat and the homes where they live. Some animals like cow and goat eat only plants. Animals like parrot and squirrel eat fruits, nuts and seeds. Animals such as lion and tiger only eat other animals. The animal that is hunted and eaten is called prey. All animals need a home as shelter to protect themselves from heat, rain and cold. Some animals build a home to live in. Some find a place to stay. Some animals do not build their homes. They live in homes built by man and are called as domestic animals.

**Day1:** Read lesson no.6(half) and underline new words and learn them.
