Class:1st

Term Ist : Study Material

Sub:S.St

Lesson no.9

Topic : Animals

This lesson tells us about animals. Animals are living creatures.

Animals can breathe. They need air, water and shelter. There

different kinds of animals and they have different food habits

and features. Animals that live in forests are called wild

animals and animals that live with us are called domestic

animals. We also keep some animals on farms, they are called

farm animals and are useful to us. Like human beings, all animals

grow.
